

Hi my name is Bektash. I am a pupil here at Hornchurch High School and I wanted to introduce myself and tell you all about Hornchurch High School and how changing to a secondary school is amazing and will change your life.

We study many different subjects including Art, Computer Science, Maths, English, Music, Spanish and many others. There are also many school clubs you may choose to participate in such as basketball club and Drama club, Music is my favourite one.

Personally, I love Computer Science, Maths and History. During my time at Hornchurch High School, I have made many friends who have helped me through all kinds of things and have made me really happy here.

Also every few days before a half term, we have a day called Drop Down day where we are offered the opportunity to go on a variety of trips. However, some of us stay in school and learn about the chosen topic for that half term, for example: bullying, online safety and many others.

Thank you for your time reading this letter. I hope to see you when you start at Hornchurch High School,

Bektash
